So you think you are having a bad day!!!!!!

In a hospital's intensive care unit a strange thing was happening , patients in one particular bed were dying at the same time every Sunday morning regardless of their medical condition.

This puzzled the doctors and some even thought it had something to do with the supernatural. No one could solve the mystery as to why the deaths occurred around 11.00am on Sunday, so a world wide team of experts were assembled to investigate the cause of the incidents.

The next Sunday morning, a few minutes before 11.00am all the doctors and nurses nervously waited outside the ward to see for themselves what the terrible phenomenon was all about. Some were holding wooden crosses, prayer books and other holy objects to ward of the evil spirits.

Just when the clock struck 11.00. Joe Johnson, the part-time Sunday sweeper entered the ward and unplugged the life support system so he could use the vacuum cleaner!!!!!!
