Fishing

Two avid fishermen go on a fishing trip. They rent all the equipment: the reels, the rods, the wading suits, the rowboat, the car, and even a holiday shack at the lake. They spend a fortune.

The first day they go fishing, but they don't catch anything. The same thing happens on the second day, and on the third day. It goes on like this until finally, on the last day of their vacation, one of the men catches a fish.

As they're driving home they're really depressed. One guy turns to the other and says, "Do you realize that this lousy fish cost us fifteen hundred dollars?"

The other guy says, "Wow! It's a good thing we only caught the one!"

Preparation

Early one evening a man went out to his garage and pulled the garden furniture out onto the driveway. Shortly after followed the lawn mower, a few gardening tools, and a bicycle.

A curious neighbour wandered over and asked if he was going to have a garage sale.

"No," replied the gentleman, "my son just bought his first car and right now he's getting ready for a big date."

"So what's with all the stuff?" asked the neighbour.

"Well, after years of moving tricycles, bicycles, toys, sports equipment, and everything else out of the way every time I came home from work I just wanted to make sure the driveway was ready for him."
